

Fully-Integrated Environmental Remediation Systems

Mid Atlantic Environmental Equipment features a line of remediation equipment that sets the standard for the entire industry.

Product lines include:

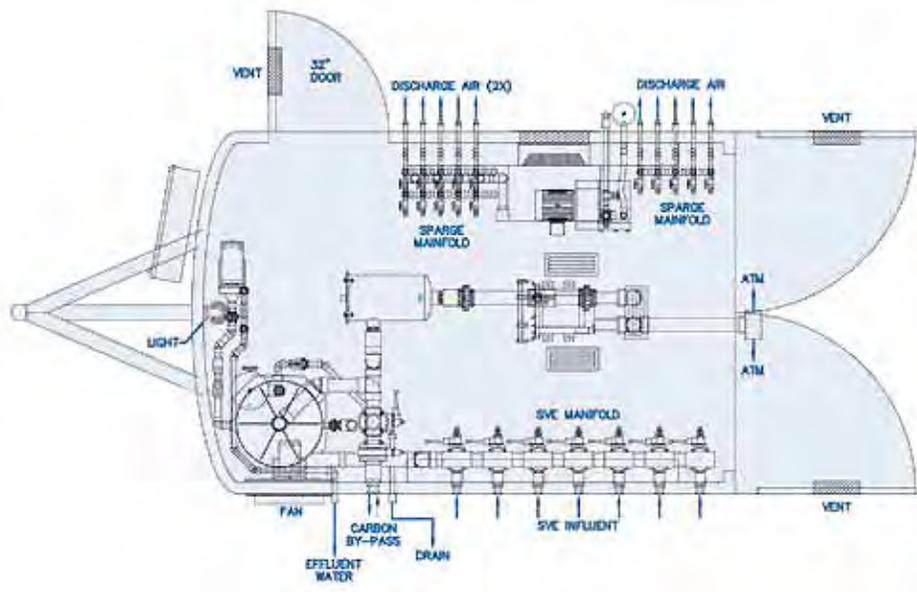

- **Air Sparging/Bio-Sparging**
- **Soil Vapor Extraction**
- **Sparge and Vent Systems**
- **Dual Phase Extraction Systems**
- **Low Profile Air Strippers**
- **Oil/Water Separators**
- **Liquid and Vapor Phase Carbon Adsorption Systems**
- **Thermal/Catalytic Oxidizers**
- **Heavy Metal Treatment Processes**
- **The latest in Bio-Remediation Technology**

MAE² Remediation Systems are fully integrated, pre-piped, pre-wired and factory tested "Turnkey" systems. A wide variety of equipment can be selected and configured to meet your sites requirements. MAE² offers mounting on aluminum grade skids, custom enclosures, open or enclosed trailers and a wide variety of custom buildings.

MAE²'s products can be custom tailored to individual specifications to meet the rigid requirements of your process needs. MAE²'s in-house design, engineering/fabrication, construction and technical support team will work with you to provide *cost-effective* and environmentally sound solutions. Our professional staff is committed to providing the highest quality, most reliable and technologically sound equipment, on schedule and within budget, supported by unparalleled customer service.

Thank you for allowing MAE² to provide a solution to your equipment needs.

Specifications			
Soil Vapor Extraction	Air/Bio-Sparge	Water Treatment	Air Treatment
Regenerative	Rotary Vane	Air Strippers	Carbon Adsorption
Positive Displacement	Rotary Screw	Carbon/Bio-Carbon Adsorption	Catalytic Oxidation
Rotary Claw	Rotary Claw	Iron Filtration/Oil/Water Separator	Thermal Oxidation
Liquid Ring	Rotary Lobe	Fixed-Film Biological	---

Control Panel

UL508/698A panel fabrication facility. Custom designed controls built to customer specifications to ensure ease of system integration. Optional telemetry system monitoring and control. Panels available with PLC or relay based controls in various voltages and phases.

Certified to UL standards
